

IN THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A method of recording and playing back content to and from a personal video recorder for audio-visual content, said personal video recorder having a storage medium for recording ~~television programmes~~programs, and ~~of~~ for presenting information concerning the recorded content on said personal video recorder, said method comprising the steps of:

recording ~~of programmes~~programs of at least a first type of ~~programmes~~programs on said storage medium of the recorder, wherein said first type of ~~programmes~~programs comprises ~~programmes~~programs explicitly subscribed to on a video-on-demand system by a user of the personal video recorder;

presenting ~~of the recorded programmes~~programs in a summarised form in a User Interface, ~~;~~ and

playing back a ~~programme~~program chosen by the user, wherein the chosen ~~programme~~program is one of the above recorded ~~programmes~~programs of at least said first type of ~~programmes~~programs.

2. (Currently Amended) ~~A~~ The method according to as claimed in claim 1, wherein said step of recording of television programmes ~~programs~~ further comprises the step of:

recording ~~of a second type of programmes~~programs on said storage medium of the personal video recorder, wherein said second

type of programmes is chosen automatically based on a user profile of said user, ~~and/or~~

~~recording of a third type of programmes on said storage medium of the recorder, wherein said third type of programmes comprises programmes recommended by a broadcaster.~~

3. (Currently Amended) A ~~The method according to~~ as claimed in claim 215, whereby wherein the step of presenting of the recorded ~~programmes programs~~ comprises the indication indicating, on the User Interface, which of the recorded ~~programmes programs~~ are based on the ~~users~~ user's subscription, based on the ~~users~~ user's profile, or recommended by a broadcaster.

4. (Currently Amended) A ~~The method according to~~ as claimed in claim 1, wherein said method further ~~comprising~~ comprises the step of:

~~deleting recorded programmes programs~~ when the user indicates that there is no interest in viewing a certain recorded ~~programme~~ program.

5. (Currently Amended) A ~~The method according to~~ as claimed in claim 4, whereby wherein the recorded ~~programmes programs~~ are deleted after a certain amount of time.

6. (Currently Amended) ~~A The method according toas claimed in~~
claim 5, ~~whereby wherein the certain~~ amount of time is controlled
by the size of available storage space on said storage medium.

7. (Currently Amended) ~~A The method according toas claimed in~~
claim 4, ~~wherein said method further comprising comprises~~ the step
of:
 updating said user profile based on said indication
~~information~~of the user.

8. (Currently Amended) ~~A The method according toas claimed in~~
claim 2, ~~whereby wherein said user profile for recording of said~~
second type of ~~programmes~~programs is adapted to the user, based on
the type of subscribed ~~programmes~~programs.

9. (Currently Amended) ~~A The method according toas claimed in~~
claim 1, ~~whereby wherein the step of playing back a programme~~
program is on a ~~pay per view~~pay-per-view basis.

10. (Currently Amended) ~~A The method according toas claimed in~~
claim 2, ~~whereby wherein a broadcaster pays per recording of said~~
third type of ~~programmes~~programs.

11. (Currently Amended) A personal video recording system
having a user interface for ~~a personal video recording system,~~

wherein on which information is presented to a user, said user interface comprising:

_____ a first user interface for explicitly subscribing to ~~programmes~~ programs on a video-on-demand system for recording; and

_____ a second user interface for presenting the recorded ~~programmes~~ programs, wherein the recorded ~~programmes~~ programs comprise at least said subscribed ~~programmes~~ programs, whereby the user is given the opportunity to choose one of said recorded ~~programmes~~ programs for viewing on a display screen or to indicate disinterest in a recorded program.

12-13. (Cancelled).

14. (Currently Amended) A personal video recorder system adapted for recording and playing back ~~of by a user~~ user-subscribed audio-visual content, said personal video recorder system having a storage medium for recording ~~television programmes~~ programs, wherein, in use of said personal video recorder system:

~~programmes~~ programs of at least a first type of ~~programmes~~ programs are recorded on said storage medium of the personal video recorder, said first type of ~~programmes~~ programs being ~~programmes~~ programs explicitly subscribed to on a video-on-demand system by a user of the personal video recorder; system;

information concerning the recorded content on said
personal video recorder system is presented to a user on a display
device, ~~;~~ and

a ~~programme~~program chosen by said user is played back by
the user, wherein the chosen ~~programme~~program is one of the above
recorded ~~programmes~~programs of at least said first type of
~~programmes~~programs.

15. (New) The method as claimed in claim 2, wherein said
step of recording programs further comprises the step of:

 recording a third type of program on said storage medium
of the personal video recorder, wherein said third type of programs
comprises programs recommended by a broadcaster.

16. (New) The personal video recorder system as claimed in
claim 14, wherein said personal video recorder system further
comprises:

 means for recording a second type of programs on said
storage medium of the personal video recorder system, wherein said
second type of programs is chosen automatically based on a user
profile of said user.

17. (New) The personal video recorder system as claimed in
claim 14 or 16, wherein said personal video recorder system further
comprises:

means for recording a third type of programs on said storage medium of the personal video recorder system, wherein said third type of programs comprises programs recommended by a broadcaster.
